

rs-barcelonaproducts

Design creates culture.
Culture shapes values.
Values determine the **future**.

RS Barcelona is a brand of intense living products. Products which, with a high **design** value, high **quality** materials and **functionality**, offer **innovative solutions** through a combination of the fine details of craftsmanship and the precision of industrial manufacturing.

Enthusiasm and optimism does not hurt anyone. On the contrary! It's great to fill our lives with moments to enjoy, however small they may seem. These are the moments that inspire us to design our products. But we do it for nothing more than to bring a small dose of joy into your life.

We are a family business and we don't renounce to our origin. In our own factory in Viladecans (Barcelona), the past, the present and the future go hand in hand. Our team, working closely with our local collaborators, gives volume to ideas and sketches, turning them into design pieces.

Intense living

If you are one of those
who see life without filters,
eager and excited to find out
what's around the corner.
You are an **intense living** person.

It's a **way of understanding life**, in which the most important thing is to look for the **positive** side of every moment and situation.

It's about enjoying what you do. With no limits and with no fear of venturing into uncharted territory. You see everything as a challenge. It's called healthy competitiveness.

However, despite your eagerness to improve and outdo yourself, you also know when to slow down and take a breather. To break up your routine. To devote time to yourself and your loved ones. To live life to **the fullest** and fill it with amazing memories.

Memories that bring a smile to your face. Or a tear to your eye, but one of happiness. That remind you that life is there to be lived intensely and **in company**. RS Barcelona products accompany you, helping you to live those moments. They help you to shed those layers of seriousness and formality and to bring out the child with curious and excited eyes you have in you. They give you that last little push you need to take the great leap forward.

RS Barcelona's journey is the history of a dream in four stages.

It all began with Rafael Rodríguez Castillo, an employee in metallurgist's, who in 1975 decided to set up his own business. One day, his small workshop turned into an industrial unit, Barcelona, where there was enough space for his two sons to climb aboard.

Along with the second generation of the family, the dream of RS Barcelona took on a new dimension. Manufacturing for others wasn't very satisfying. The creative bug stimulation was impossible to resist and it was scratched through the company's first own product: the RS#2 design football table, a highly personal reinterpretation of one of the classic items of Spanish game culture.

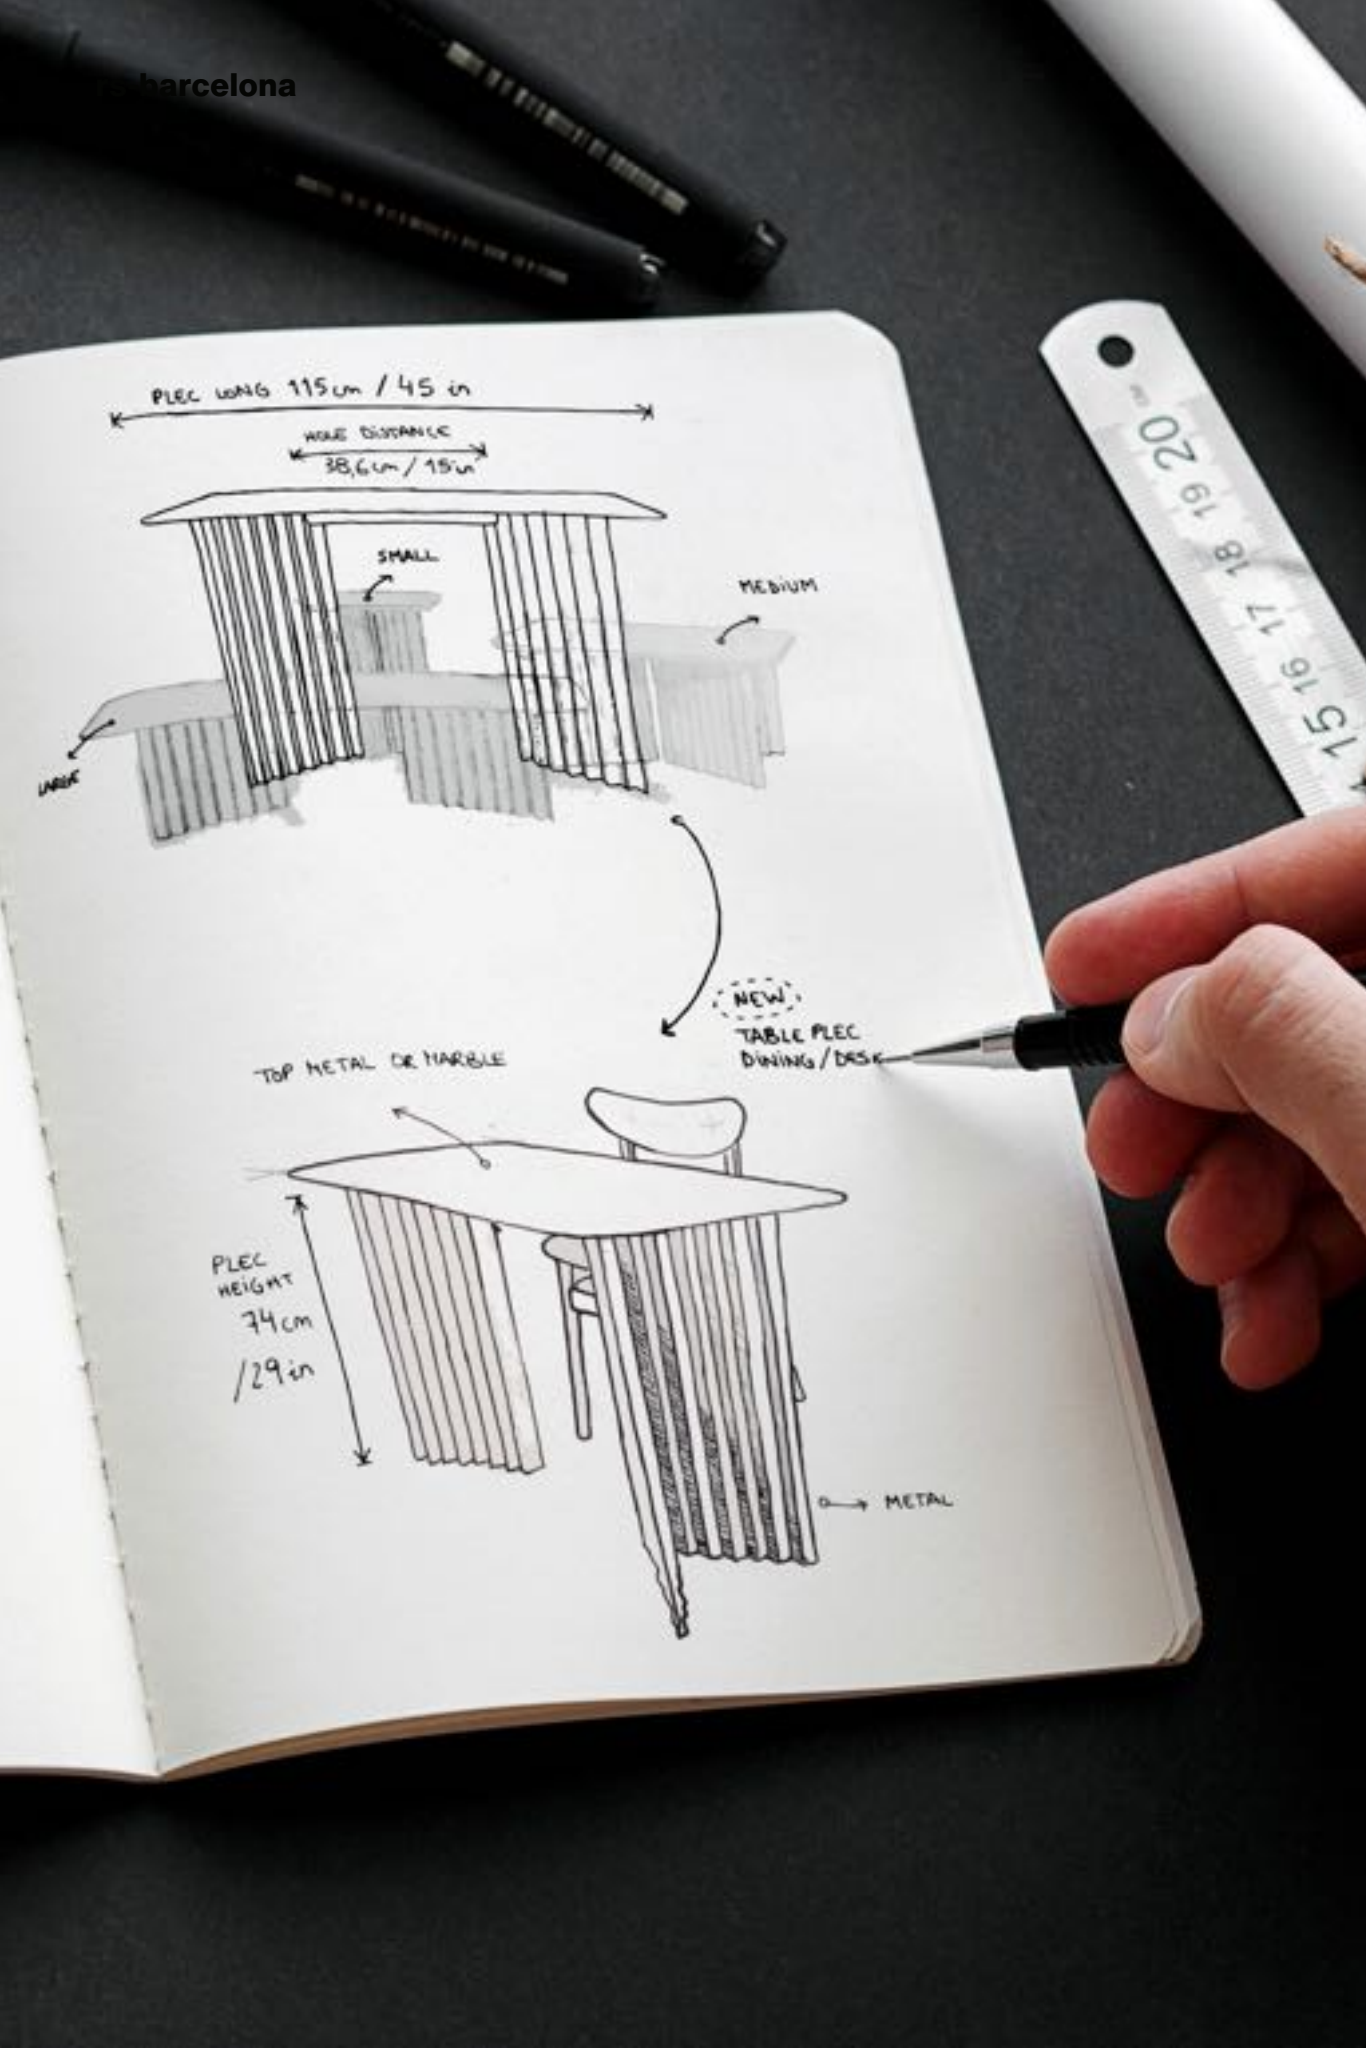

In 2006, the RS2 had earned itself a spot in Barcelona's most important design shop window: the legendary and fabulous Vinçon. A window shop with international renown. Something like that fills you with pride and gives you the courage to take the plunge and manufacture other products, to set your sights on new horizons and new markets. The big leap forward was the first foray into the US market, a market singled out by the brand right from the start. RS Barcelona's catalogue grew little by little and its products began to be featured in leading and trend setter shop windows all over the world. This sort of success can be dizzying. But the trick is getting excited and keep putting your heart and soul into every little challenge.

And now we're in the fourth stage of this dream. It's just begun. We are working hand in hand with both young and internationally renowned designers and with a team of professionals who combine expert craftsmanship with years of metalwork experience, finely honed industrial production skills and new technology know-how. Together they come up with new ideas and innovative concepts to create intense living products.

“Let’s create something special.
Let’s make something unique”

Each product is the sum of unique moments. The fledgling idea. The first sketches. The countless test designs on paper. The magical encounter between the fine details of craftsmanship, the precision of industrial manufacturing and technology know-how. Years and years of metalwork experience collaborating hand in hand with our local suppliers to come up with the best materials and solutions to produce our pieces. Products made by ourselves. With our own hands. On our own facilities. Products made in Barcelona

Attention to each detail. To make it even more special, we can fully customise it for you. If you can imagine it, let’s talk. We enjoy working together with our partners and customers. Because together we can create that special concept, that unique piece you are looking for.

Design

It's our DNA. It's our essence. Design that goes beyond aesthetics. Design that works. Design that inspires. Design that excites.

Quality

We're manufacturers. We control all the production processes. To ensure high quality in every single piece.

Play

Play brings us closer. It joint us. It allows us to treat each other on an equal footing once we've hung up the uniform of our daily routine.

Functionality

Design and functionality in perfect harmony. We offer you versatile solutions that adapt to all lifestyles and all spaces.

Sharing

There's no better feeling than sharing the good times with your loved ones. Our main wish is to help you to live those moments, to share them.

Customisation

Together we design your needs and expectations. And together we create an exclusive product for you. Let's make it unique.

Emotions

Laughter. Joy. Challenges. Let out all those feelings. Let out your inner passion. The same passion we channel into our creative work.

Sustainability
Local production

There's no greater commitment to the planet than manufacturing products that will stay with us all our lives. That is our commitment: durability.

Diagonal Pool Table

by Yonoh

Like a line, which crosses a space
from end to end,
the **Diagonal pool table**
fills any room with **design, elegance**
and a **playful attitude**.

Diagonal Pool Table

by Yonoh

- Its light, simple and innovative forms make it **unique** and **timeless**
- It achieves the perfect blend between **play** and **design**
- For spaces with a lot of people (co-working, big offices, bars, patios...)
- **Easy assembly**, don't need professionals
- Versatility – **dual usage** with the table top
- For **indoors & outdoors**
- **Playful attitude** / sharing
- **High quality** materials and **everlasting** products
- **Sustainability** - recycled fibre cement instead of slate board to reduce environmental impact with the **same playing features**.

B-Around Table

by Antoni Pallejà Office

No two workdays are the same.
No two projects are the same.
Likewise for meetings. Not even
two **B-Around** tables are the
same. You make yours unique.

B-Around Table

by Antoni Pallegà Office

- **Versatility in functionality:** as a standard office table, conference table, as a hot-desk, for the canteen, restaurants, terraces, patios
- **Versatility in its measurements and heights**
- **Versatility in power socket options**
- **Indoor and outdoor**
- **Custom:** make it unique
- **High quality** materials and **everlasting** products
- A table to **work around, to eat around to live around.** To be around.
- Bench collection

Plec Table Collection

by Antoni Pallejà Office

A table that takes the shape of
a 5 minutes coffee break;
of a few pages of the book
you are reading; of an informal
meeting on the terrace.
What shape can you see in it?

Plec Table Collection

by Antoni Pallejà Office

- **Classic** and **timeless** design
- Metal = Industrial + Marble = Elegance
- It fits perfectly into **any setting and space**
- **Indoor** and **outdoor**
- **High quality** materials and **everlasting** products
- **Playful attitude**
